

# School Specialty & Students Development

## **1. Students Courses**

### **1) Reading Program:**

- Promote daily morning reading for 15 minutes to develop good reading habits.
- Establish “The Love Suku” (The Mobile Library) of Emei Township to enrich the resources for the school library.

### **2) Science Education:**

- Seek sponsorship from the community to establish the Science Club for Grade 1 ~ Grade 4 students at school, which students can have the hand-on scientific experiences.
- Implement the exploring local ecology course by combining the school's outdoor education program. So the students can learn variety of the natural resources of Emei Township.

### 3) Physical Education:

- Baseball – The school represented Hsinchu County for the 2013 National Baseball League Match (Elementary Schools).
- Volleyball – Fu-Sing School girls' volleyball team came 1<sup>st</sup> and 2<sup>nd</sup> in the 2012 Hsinchu County Schools Volley ball Competition.

### 4) Global Education:

- Specially designed courses for students such as the tea making workshop and the tea tasting course.
- Establish the “Weekend English Class” for the less privileged students at school.
- Apply for a foreign English teacher to teach at school (In partnership with Emei Junior High School.)
- Organise the summer and winter camps for students.

## 2. “Arts & Humanities” Education

- 1) Tea-dye art craft course: Invite the tea-dye artist to come to school to teach students the tea-dye art craft and to promote the handicraft education.
- 2) Making pottery art: Invite the pottery artist to come to the school guide the students with the pottery making and to beautify the school campus.
- 3) Recorder & Ukulele Clubs
